CESH 2007

XIITH INTERNATIONAL CONGRESS OF THE EUROPEAN COMMITTEE FOR SPORTS HISTORY

LORIENT (Brittany/FRANCE)

September 20th-22nd 2007

SPORT AND THE ARTS CONSTRUCTION AND REALITY

Coll. musée national du Sport (C) Alain Bar/DR

Sauteur à la perche, Alain Bar

**SPORT AND THE ARTS:
CONSTRUCTION AND REALITY**

As a form of creative human expression, the aesthetic and artistic status of sport itself, as well as its relation to and representation in the literary, plastic, visual, musical... arts have raised many questions. Whether sport is considered as one of the movement arts or as a subject for the other arts, the way in which it has been represented and/or performed varies widely according to time and space.

Congress participants are invited to take part in an interdisciplinary reflection on the use of artistic representations and/or performances as source material as well as on the type of "reality" such artistic "constructions" mediate, in a critical, diachronic, possibly dialectical and cross-community perspective.
